To take advantage of this great offer, simply enter the promo code **sweetCAIB20** at checkout.

ILScorp's Canadian Accredited Insurance Broker (CAIB) Preparation courses combine the dynamic instruction of West Coast Training's Todd Hochban with the ease and convenience of online learning. Each course is divided into easy-to-manage chapters, including 10 to 20 minute video clips and related text. A number of exercises, examples and mock exams round out the learning process, so students can feel completely comfortable to challenge their CAIB licensing exam. For more information on any of the four CAIB preparation courses or to register, click [here](#).

ILScorp's Daily Assisted Learning Virtual Classroom sessions for CAIB preparation structures your learning even more. A learning calendar breaks the course down into daily study modules, allowing students to manage their time and

learning outcomes. Daily emailed questions, based on the previous day's instruction, reinforce key concepts and challenge a student's knowledge, comprehension and retention of the course material. Online threaded discussions moderated by the instructor allow for students to ask questions, review answers and participate in "group think" with other students from across the country. About ILScorp

ILScorp is an industry leader in insurance broker education in Canada. Building on more than two decades of in-person training, in 2000, ILScorp went online with ilscorp.com and became the first independent organization to offer online continuing education and licensing preparation training. In 2007, ILScorp offered the first training programs in a video-streaming format. Today, ILScorp continues to be the training course provider of choice for more than 21,000 Canadian insurance professionals. Its news arm, ILSTV (www.ilstv.com) offers free daily broadcast and text insurance news to a worldwide audience. ILSJobBank (www.ilsjobbank.com) is the hub for insurance and financial services employment services. ILSWebServices (www.ilswebservices.com) offers professional clients from coast to coast a full suite of website development, designing and hosting solutions, including Learning Management Systems, Search Engine Optimization development and social media management.
